- well managed, in depth research
- Pretty good job!
- good ppt
- Good overall analysis. The first slide was a little misleading due to no screenshot but it appeared after so helped visualise the concepts.
- Good presentation, lots of information. Maybe a bit too much text on the slides. Clear speech and pleasant voice, maybe just slow down a bit :)
- I liked very much the presentation, intro and summary especially appreciated!
- Good to include intro, nice to hear what you learned from the websites and you want to use them in your own projects
- It was a bit long, but content wise it was to the point. Calm presenting style
- Text was a bit too small but it was nice to hear your thoughts!
- Too many different colors in the presentation. Little bit too much text per slide. You changed the slides little bit too fast and I didnt have enough time to read them. Also it would have been nice to mark more clearer which ecommerce/personalportfolio etc. you are currently talking about. :) Very interesting presentation!
- Very calm and nice presentation. Good time management and nice findings. Good presentation :)
- a bit too long, well presented - not stuck to slides, headers were taking all attention - smaller texts were too small and not well visible
- content was really good
- I love his voice. It calms me down.
- good research and well presented. I like the choice of websites and through expalination!
- GOOD INFORMATION
